

Self Isolating Children Overview Sheet

If you find that your family need to self isolate for 2 weeks, we hope the resources we have provided will help your child to continue with learning from home.

In school we would spend

30 minutes practising spellings each day – please refer to the common exception word lists at the back of the reading diary and practise 3 / 4 of these words each day. Children should know strategies that we use in school for practising words. If your child struggles with spelling you may need to refer to the Year 1 / 2 list.

30 minutes practising times tables- these websites are helpful

<https://www.topmarks.co.uk/maths-games/hit-the-button#:~:text=Hit%20the%20Button%20is%20an%20interactive%20maths%20game,challenge%20and%20develop%20a%20child%27s%20mental%20maths%20skills.>

<https://www.themathsfactor.com/times-tables-check/#/>

30 minutes reading – use books from home if you do not have a school book. E books can also be found here

<https://home.oxfordowl.co.uk/reading/free-ebooks/>

<https://www.worldofdavidwalliams.com/elevenses/> - is great for children to listen to.

We have also attached literacy resources to support your child and maths resources. If your child has learning difficulties you might want to look at resources for Year 2 children.

Finally we have put together a whole school topic grid that whole families can work on together. These is around the theme of 'Countries/Places' are is designed to help children increase their knowledge of the world. Please choose as many activities as you feel your child can manage. There are plenty on there to cater for different needs – children are only expected to complete a few of them. Some may take more than one session to complete.
